The So. Md. Vol. Firemen's Assoc. will host an antique fire apparatus muster at MFRI's So. Md. Regional Training Academy. There will also be several pieces of modern apparatus on display to reflect the changes that have been made in technology with the design of fire apparatus. Visitors will be able to see like apparatus side by side so those changes in technology will be obvious. We encourage all apparatus to attend both department and privately owned. Each registered apparatus will receive a participation plaque and several awards will be presented after judging is complete.
